

Industry Leader in Custom Application-Specific Equipment

- **Hot or Cold Water Pressure Washers**
- **Steam Cleaners**
- **Fluid Heating and Cooling Systems**
- **Steam Generators**
- **THOUSANDS of Custom Options**

The exact equipment you need from a name you trust.

Sioux has Thousands of Custom Designs Available!

A few examples:

***Multi-Gun
Cleaning
Systems***

***Explosion-
Proof Pressure
Washers/
Steam
Cleaners***

***Fluid Heating
and Cooling
Systems***

***Galvanized
and Stainless
Steel Frames***

***Mobile Steam Cleaners/
Pressure Washers***

Mobile Steam Generators

***Proven durability and
reliability makes Sioux
your best choice.***

Sioux can design and build the exact equipment you need!

Application-Specific Equipment That *ONLY* Sioux Can Offer!

Custom-Designed Machines

For 70 years, Sioux has been the industry leader in custom-designed machines for application-specific needs. When it comes to water heating systems, pressure washers, steam cleaners, and steam generators, we can design and build exactly what you need. In fact, over 50% of our production is modified, custom or application-specific equipment. Sioux has designed units that are now operating below sea level, in the desert, in arctic conditions, in the jungle, and at over 14,000 ft. elevation. ***There is very little that Sioux cannot do!***

Customer-Specified Components

- Pumps (AR, Cat, General, Giant, Grundfos, Hypro, UDOR, and others)
- Gas and Diesel Engines (Briggs & Stratton, Caterpillar, Cummins, Honda, Kohler, Kubota, Isuzu, Deutz, and others)
- Trailers (highway or non-highway rated)
- Special hoses, reels, guns, nozzles, lights, and other accessories
- Wide range of temperature and safety controls, timers, time delays, hour meters, and other controls
- Stainless steel wetted parts

Custom Frames & Mountings

- Custom configurations to meet your needs
- Carbon steel, galvanized steel, stainless steel, or aluminum frames
- Custom paint colors and types
- Portable, stationary, or skid mounted

Custom Electrical System or Setup

- Alternate electricals including (50Hz or 60Hz and 120V, 208V, 240V, 380V, 400V, 415V, 480V, 575V and 600V, 660V and 690V)
- The most extensive line of all-electric pressure washers and steam cleaners
- Explosion-proof options available on most designs
- Central cleaning systems and multiple gun machines
- Chemical or sand-grit injection

High-Performance Units

- 10,000 PSI, 100GPM (689.5 BAR, 378.5 LPM) or higher

Self-Contained Units

- Water, fuel, and chemical tanks
- Generators
- Trailers
- Anti-Freeze systems

Codes & Certifications

- ASME/Hartford, UL, NEC, CEC, AGA, CGA, CE, ATEX, IEC and most others
- ASME Certified Welders

Complete Engineering Capabilities

- Complete engineering submittal packages and certified drawings
- AutoCAD and SolidWorks drawings
- Specification and design recommendations for custom applications

Call Sioux TODAY to discuss your specific needs. Sioux can utilize over 70 years of custom design experience to find the best solution for you.

What Makes Sioux Different?

Since 1939, Sioux has been helping customers in a wide range of industries solve challenging problems by engineering and manufacturing innovative, application-specific equipment. Proven durability and reliability make Sioux the best value for demanding applications.

Reliability Guarantee

Sioux offers the only twenty-year reliability guarantee in the industry which includes same day shipment of stock parts orders, and lifetime parts department support. See details in form 308 and form 847.

Conservative Design

Sioux does not undersize components such as motors, pumps, burners, frames, or engines, which is common elsewhere.

Proven Performance

Sioux machines are dependable in the field. Combining high quality components with 70 years of custom manufacturing experience and extensive engineering design capabilities allows Sioux to provide the industrial workplace with the best cleaning equipment for continuous operation.

Simple Operation

Sioux machines are designed to be simple to install, operate, and maintain.

Safety

In addition to dependability and simple operation, operator safety is a top design consideration for all Sioux products.

Factory Testing

Every Sioux machine is thoroughly tested in our on-site testing facility before it leaves the factory.

A Well-Deserved Reputation — The Best

Sioux machines are constructed to provide long life and trouble-free service in the industrial workplace, and include standard features that are often considered options on competitive models. These features may initially cost a little more, but provide equipment that runs better, lasts longer, is safer to operate and, over the life of the unit, provides a superior return on your investment.
