

Mobile Cleaning & Thawing Systems from SIOUX

SIoux Model S4D250-GTT

Remove Snow & Ice • Remove Gum & Tar

Thaw Frozen Pipes & Systems • Remove Oil & Grease

Disinfect & Sterilize Equipment • Prepare Surfaces for Painting

De-Gas Tanks • Clean Monuments & Historic Buildings

All Steam Cleaners Are Not Equal

Any Sioux cleaning unit can be turned into a mobile cleaning system. Sioux offers custom trailer packages built to accommodate your exact needs, so you can rest assured you will have the right equipment on site at your remote location. Sioux trailers, like all Sioux equipment, are built to last a

lifetime with the highest quality materials available. Sioux trailers are industrial grade and made of structural steel tubing and channel iron. Solid steel construction gives the trailer structural support and increases the durability over the life of the equipment.

Options

- Insulated trailers
- Electric brakes
- Hydraulic brakes
- Hose reel packages
- Poly water tanks
- Stainless steel water tanks
- Antifreeze package
- Off-road tires and wheels
- Gasoline or diesel generators
- Tool boxes and lance extension holder
- Extra pressure/steam hose storage
- Diamond plate flooring (enclosed trailer packages only)
- Electric space heaters (enclosed trailer packages only)
- Air louvers (enclosed trailer packages only)
- Fuel tanks
- LED tail lights
- LED strobe lights
- Steam rake
- Ask about other custom options

SIoux Trailer Packages

Features

- Solid welded diamond plate fenders
- Heavy duty leaf spring suspension
- Safety chains
- Wiring harness with brake lights
- Safety reflectors
- Adjustable height ball hitch or lunette eye
 - Removable tongue
 - Tubeless radial tires
 - Leveling jack
 - Solid steel construction
 - 15" wheels

SIoux Model H5D3000-DTTM

Benefits

- Easily portable cleaning equipment
- Cleaning/thawing in remote areas
- Highway ready
- Expand your cleaning applications
- Self contained cleaning system
- Built by certified welders
- Custom designs to fit your needs
- Reduce capital expenditures
- Increase profits

SIoux Model S6D250-DTT

Easily melting ice dam for drainage

Cleaning heavy equipment

At Sioux, we have been building both high pressure hot water washers and steam cleaners for over 70 years. There are some advantages to using hot water washers and some advantages to using steam cleaners. Each cleans in a different way. Determining which machine is best depends on the application.

- With pressure washers, dirt and particles are blasted away by the force of high pressure water. Heat will improve the result if melting is required, and use of the proper detergent may enhance cleaning.
- Steam cleaners are used when the substance to be removed melts, softens, or dissolves with the applications of heat. This is the case with grease, oil, tar, many petrochemicals, ice, wax, food products, and similar materials. The substance is melted or dissolved, rather than pushed on the surface.

Sioux offers either hot water washers, steam cleaners, or combination hot water washers/steam cleaner units, any of which can be trailer mounted. Combination units offer maximum versatility.

Mobile Cleaning Applications

	SIoux HOT WATER PRESSURE WASHER	DAKOTA II - GTT STEAM CLEANERS	DAKOTA II - GTT WITH RAKE ATTACHMENT
Melting ice dams, thawing valves, culverts, hydrants, tanks, piping systems, drains		X	
Thawing railroad cars to accelerate removal of viscous contents		X	
Removing oil and grease thoroughly, without residue/film		X	
Preparing surfaces for painting	X	X	
Cleaning monuments and buildings destined for restoration	X	X	
Degassing oil and gas tanks		X	
Sterilization and disinfection of equipment and facilities		X	
Killing weeds near water tables, buildings and rock beds			X
Eradication of insects, weeds, nematodes from soil, beds, containers			X
Washing and maintaining vehicle fleets	X	X	
Contract cleaning applications	X	X	

"X" Indicates the best unit for each application. Combination units are ideal for all applications.

Sioux is the industry leader in designing and manufacturing custom, application-specific equipment. Sioux has a wide range of options available, such as all-electric and explosion-proof construction, any voltage, 50 Hz units, SCR temperature controls, custom frames and mountings. We can provide the EXACT equipment for your needs. Call us for a quote today!
